

Position Title

Environmental Project Engineer

Buffalo, NY

Are you interested in a career working on some of the most exciting redevelopment projects in Western New York? Benchmark Environmental Engineering & Science, PLLC is a professional engineering company that specializes in environmental design and redevelopment. Our sister company, TurnKey Environmental Restoration, LLC provides construction and environmental services. Together Benchmark & TurnKey offer integrated design/build/operate services for investigation, remediation, and redevelopment of environmentally-impaired properties throughout Upstate New York from our Buffalo, New York headquarters.

Scope of Position

Benchmark Environmental Engineering & Science is seeking high performing, top-quality candidate as an Environmental Engineer with a background in Civil, Environmental, Geological, or Chemical Engineering. The position will involve diverse & challenging projects to plan, design, build and operate: site remediation; commercial/industrial/brownfields development; water/wastewater; landfill expansion and closure.

Successful candidates will have strong technical skills, excellent written and oral communication skills, be self-motivated, exhibit independent thinking skills, and the ability to work successfully in a team as well as independently. This position encompasses both office work (technical report writing, data analysis and tabulation) as well as field work in all weather conditions.

Responsibilities:

- Engineering design, including preparation of design drawings and specifications
- Report preparation
- Oversight, implementation, operation, maintenance and monitoring of field pilot tests and remedial systems for various remediation technologies
- Field oversight activities for soil and groundwater remediation projects, including subcontractor coordination
- Data compilation and analysis

Required Qualifications

- BS degree in Environmental, Civil, Geological, Chemical or related engineering
- 4-10 years experience

Desired Qualifications

- P.E. License and/or MS degree
- AutoCAD proficiency
